

in order get myself to write this press release I had to make a vlog - about the process of writing this press release. [here's the vlog](#).

the press release is about an EP of mine, called **Bad Joke EP**. it will be released on pretty much all streaming platforms:

single	single	ep
----- ----- ----- -----		
2/9	16/9	30/9

first single "camera song" [link](#)

second single "mag dich" [link](#)

ep "bad joke EP" [link](#)

The 5-song self produced EP 'Bad Joke' is a result of me moving out into the swedish forest in March 2020, where I started translating the pianistic experimentation that I'm known for into learning to record strange samples in Ableton.

"there are are some interesting things in there, but overall not interesting enough for us to work with" - a record label I contacted

release party will happen, [IN MY FLAT](#), stockholm, on 30/9, 19.00. Welcome!

The making of the first single "camera song" is documented through a series of eccentric vlogs, which can be viewed [here](#).

contact me by making a vlog, uploading it to youtube and sending me a link.

Just kidding, please email me at:
